Specifications TM450

from high tensile steel plates. Outrigger boxes are integrated with the chassis. • Drive is 8x4x4 (4 wheel drive and 4 wheel steer) • Full width driver cabin is provided with driver and co-driver seating arrangement. Hook Block • Sheaves hook block is provided with driver and co-driver seating arrangement. Hook Block • Sheaves hook block is provided with driver and co-driver seating arrangement. Hook Block • Sheaves hook block is provided block is provided with driver and co-driver seating arrangement. Hook Block • Sheaves hook block is provide developing 274 bhp@ 2200 rpm Clutch Single plate(881mm), Dry, hydraulic actuated diaphragm type actuated diaphragm type Transmission Nine speed synchromesh Gear Box with crawler gear. Top Speed 49 Kmph. Safety Flor hydraulically operated diith dual line arrangement. Flick valves operated pneumatic hand brake on rear and front wheels. Tyre Size 11.00 X 20-16 ply rating (12+1) Outrigger Four hydraulically operated outriggers fitted with lock valves. Outrigger blocks are removable and stowable. Fifth outrigger is also provide below cabin Triple Gear pump driven by transmission P.T.O. supplies oil to all circuits except steering system. Super Structure Fabricated with high tensile steel plates and is capable of unlimited slewing in either direction. Super structure is mounted on a sealed, internal teeth slew ring. Double acting hydraulic cylinder. Performance Data • Derrick Angle • Derrick Angle • Derricking time • Telescoping time				
with driver and co-driver seating arrangement. Hook Block 5 sheaves hook block is provide arrangement. Hook Block 5 sheaves hook block is provide arrangement. Hook Block 5 sheaves hook block is provide arrangement. Engine Mahindra Power or suitable, turbo charged, inter cooled diesel engine developing 274 bhp@ 2200 rpm developing	nd	from high tensile steel plates. Outrigger boxes are integrated with the chassis. Drive is 8x4x4 (4 wheel drive and 4 wheel steer)	Hoist System	Hoist winch is provided with piston type hydraulic motor driving grooved hoist barrel via reduction gear unit. The system is fitted with counter balance valve to control the speed of lowering and to hold the lifted load.
Engine Mahindra Power or suitable, turbo charged, inter cooled diesel engine developing 274 bhp@ 2200 rpm Capacities Clutch Single plate(381mm), Dry, hydraulic actuated diaphragm type Hydraulic Tank Fuel Tank 700 Ltrs. Transmission Nine speed synchromesh Gear Box with crawler gear. Operator's Cabin (Crane) Cabin with maximum all round vision is fitted. All controls for crane motion and electrical controls are provided in the cabic Cabin is fitted with fan and lights Brakes Air pressurized diaphragm operated with dual line arrangement. Flick valves operated pneumatic hand brake on rear and front wheels. Safety Equipment		with driver and co-driver seating	Hook Block	5 sheaves hook block is provided
Clutch Single plate(381mm), Dry, hydraulic actuated diaphragm type Transmission Nine speed synchromesh Gear Box with crawler gear. Top Speed 49 Kmph. Air pressurized diaphragm operated with dual line arrangement. Flick valves operated pneumatic hand brake on rear and front wheels. Tyre Size 11.00 X 20-16 ply rating (12+1) Outrigger Four hydraulically operated outriggers fitted with lock valves. Outrigger blocks are removable and stowable. Fifth outrigger is also provide below cabin Triple Gear pump driven by transmission P.T.O, supplies oil to all circuits except steering system. Super Structure Fabricated with high tensile steel plates and is capable of unlimited slewing in either direction. Super structure is mounted on a sealed, internal teeth slew ring. Double acting bydraulic Capinal Capinal Rydraulic Tank Fuel Tank Super Structure Cabin with maximum all round vision is fitted. All controls for crane motion and electrical controls are provided in the cabin Cabin is fitted with fan and lights Safety Equipment Safe load indicator provides rand hook load indication of over load condition. Safe load indicator provides rand hook load indication with indication of approach to over and audible indication of over load condition. Overload and Over hoist cut-condition. Performance Data Deprick Angle De			Hoist Rope	18 mm diameter.
actualed diaphragm type Fuel Tank 335 Ltrs. Transmission Nine speed synchromesh Gear Box with crawler gear. Top Speed 49 Kmph. Air pressurized diaphragm operated with dual line arrangement. Flick valves operated pneumatic hand brake on rear and front wheels. Tyre Size 11.00 X 20-16 ply rating (12+1) Outrigger Four hydraulically operated outriggers fitted with lock valves. Outrigger blocks are removable and stowable. Fifth outrigger is also provide below cabin Hydraulic System Tiple Gear pump driven by transmission P.T.O, supplies oil to all circuits except steering system. Super Structure Fabricated with high tensile steel plates and is capable of unlimited slewing in either direction. Super structure is mounted on a sealed, internal teeth slew ring. Pouble acting hydraulic cylinder. Fabricated Park of the Cabin (Crane) Cabin with maximum all round vision is fitted. The above capacities are in accordance with Indian Standard Code - IS:4573-1982
 Rated loads do not exceed 85% of tipping loads at rated radius. The loads shown are gross loads and the weight of the hook block, lifting tackle etc. must be considered as part of the lifted load.

3. Outrigger's to be deployed in fully extended and jacked position on firm & rigid leveled surface.
